

PANDROL

Corporate overview

www.pandrol.com

info@pandrol.com

Pandrol defines the industry standard for rail fastening systems and aluminothermic welding.

We've created rail infrastructure in more than 100 countries. Our capabilities extend to manufacturing castings and plastics, track electrification, and creating equipment for track construction, fastening installation, and welding. Our sustainable resilient systems extend the life of track, and our track analysis solutions enable proactive maintenance.

- Over **100** years of product development and engineering milestones within the railway industry.
- A world leader and global employer with over **1700** team members across **40** locations.
- Our products and services are at the heart of more than **400** railways in over **100** countries.

Pandrol are part of **Delachaux Group** – a family-owned company created in 1902. The Delachaux Group is a global player in mission-critical engineered solutions.

The driving force in rail

We've created rail infrastructure in over 100 countries. That means we've experienced just about every situation, problem, question, and solution before. Our expertise includes:

Our promise

We lead the rail infrastructure sector to maximise the **availability** of track, **safety** of people and assets, and deliver **lifetime value** and **sustainability** for networks around the world.

100+
Years experience

5,000+
Customers

1,700+
Team members across
40 locations

3 billion
Enough fastenings to
build a track to the
moon!

40 million
Welding kits sold

400
Railways supported in
over 100 countries

Our team of global experts are ready to support you.

Why choose Pandrol?

Services

Pandrol offer a variety of bespoke services including technical support for fastening projects, aluminothermic welding and equipment training, ultrasonic testing of track, and bespoke solution design.

UN Global Compact

As a signatory to the UN Global Compact, we are committed to corporate social responsibility in every country. This commitment entails health & safety, fair market practices, fighting corruption, sustainability, equal representation, and much more.

ISO Certification

At Pandrol, we take pride in our manufacturing practices and constantly work to the highest standard. Our facilities are certified with ISO 9001 for quality, 14001 for environmental performance, and 45001 for health & safety.
